In the end — What do you get

In these increasingly difficult times for musical art and culture in general, and especially for the upcoming generations of talented young musicians, you have earned a big THANK YOU because without your help the Competition couldn't be held.

Why? Primarily because all state and city financing has been noticeably reduced while at the same time all prices of organization were increased, due partly to the damage caused by the earthquake, and partly due to the pandemic (at least 25%) as well as all the taxation for the awards for the winners (since awards to young artists are taxed as performing contracts on which all pension funds, health funds and tax benefits are calculated, as well as VAT for all foreign contractors, which increases the cost of award payments by almost 55%), Because of that, your assistance is irreplaceable!

We will make sure that you have a contact with the young musicians and their performances even after the competition is over by granting you access to the **MUSICAL STAGE** platform, on which all recordings of this year's (12th competition) competitors, as well as the 11th competition held in 2017 will be stored, as numerous other surprises, all in the performances of the best young musicians.

The more friends we have, the more strength we gain for future change - in the government, public services, everyday life, the lives of young musicians. Together we are stronger, together we make a difference.

As our friend you will also receive our newsletter, share your stories and shape our work.
